## Happenings in and Around Frank

A. I. Blais spent Sunday last in Michel.

Mrs. Geo. Miller returned from Homer on Sunday's passenger.

A. I. Blais attended the meeting of the Crow's Nest Pass Hockey League at Blairmore on Friday evening.

The two brothers of Mrs. Wm. Jolley, of Frank, the Messrs. Gleave, of England, arrived in town on Thursday night from the Old Country.

Mr. Dawkins, who has been here for a month, is making the vacant barber chair in the Frank hotel, left on Monday for Bellevue where he is going to start a barber shop.

A meeting of the hockey club was held in Frank hotel on Friday night, there was a good attendance and several took part in the discussion of hockey and the skating rink.

The first school meeting of the Frank school district was held on Monday, when they discovered that it was not the term of trustees that had expired but that of Clearhurst. A. M. Long was elected chairman for the coming year.

A short council meeting was held on Monday at which W. J. McGowan was elected chairman for the coming year. The council meetings in the future will be open to all who care to attend. The same will be held in the future.

No wonder W. J. McGowan wears the smile that won't come off, eighty seven votes polled and he received eighty four. Since becoming town father he has set the rest of the citizens a good example by clearing the snow off the sidewalk around the Hardware etc. Ye Frankites take notice.

On Thursday and Saturday of last week, Frank was visited by a moving picture show. Saturday night's show was particularly interesting to ladies as it was reported that the latest Paris fashions were to be shown, of course that drew a crowd. On both evenings the hall was full, but the entertainment was sadly marred by many souls who never think of the other person and continue smoking, smoking all through the show, thus making the room uncomfortable as well as unhealthy. We suggest that the manager of the hall on these occasions see that this habit is broken off.

## Prominent Mining Men to Gather

Meetings are being held daily by committees in charge of the details of preparation for the coming convention in Spokane of the mining men of the Northwest. The annual reports of mining corporations are showing much improvement in conditions and there is now an increasing interest in the possibilities ahead for the mining industry. "We only need to place the facts before the people to insure cordial support, and this will be done by the February convention" is the way a prominent operator expressed it at the dinner of the Mining Men's Club, Thursday of last week.

Among the speakers of national reputation who have already sent in their acceptance are Governors Herz of Washington, and Hawley of Idaho. Seattle, Tacoma and Butte will send strong delegations, and the Association of Butte will be represented by delegates and will probably speaker in person the Alaskan situation from the standpoint of those interested in the development of that vast mineral territory. James H. Lynch, S. W. Kemper, and Senator H. A. Gallivan, and others, will represent the City of Butte, and one of these men will place before the convention a resolution in favor of an increased endowment of silver dollars as a mint to be located in the Northwest, and will seek the convention to endorse an aggressive move of a national character in favor of such legislation by Congress.

As this convention will be a representative gathering of mining men from all the mining states west of the Mississippi River, it is felt to present the most important occasion of the year. The action taken on questions of needed legislation will have weight with the Senate Legislation, and with Congress at Washington. All papers presented by the principal speakers will receive consideration in detail, and the broadest discussion will be permitted on all phases of the mining industry.

## Picked Up

On the railroad, about midway between Frank and Blairmore, on Monday afternoon, a bunch of five boys were picked up by a passing train. They were picked up by the train and taken to the station where they were waiting for a train to Blairmore.

Mrs. M. S. Bourgeois, who was recently taken to the Mission hospital, at Coleman, was transferred to Lethbridge on Saturday.

Some local "guy" sent out of town and had social invitations printed on the back of a lot of a meal ticket. It's a cheap job and deserves a cheap response.

The Gaiety Square Entertainers will appear at the opera house here on Thursday evening next. These entertainers are well recommended by the public and the press.

Blairmore Lodge No. 68, I.O.O.F., held its semi-annual installation in their lodge room, Victoria street, on Tuesday evening last. The names of the elective officers appeared in these columns several weeks ago.

All evangelical churches are requested to hold one hour of prayer on Sunday afternoon next. At the Institutional Church in Coleman it will be held between 3:45 and 4:45 p.m. At the Central Baptist church, Blairmore at the same hour.

Election for school trustees for the town of Blairmore was held in the council chamber on Monday evening when the following were elected by acclamation: Rev. J. F. Hunter and A. A. Sparks, for a term of two years each, and Samuel Ekins for one year.

Rev. W. T. Young, of Frank, has commenced a class in English for the Italians of this town and he has rented the Union hall for that purpose. The lessons will be given free and all Italians who desire to speak good English are cordially invited to attend.

The officers elected by the Young People's Guild for the current term are: J. G. Smith, president; J. D. S. Barrett, vice-president; Mrs. H. G. Bigelow, secretary; treasurer. Chandler.

What came near being a tragedy occurred on Monday evening last as the eastbound train was leaving the station. The Frank-Blairmore hockey game was played here the same night, and some of the Frank people hurried to the station to catch the train to convey them home but they were late in arriving at the platform and three young men who attempted to board the already fast going "passenger" were dragged along over the end of the spacious platform into the snow and water. ## Editorial Notes

It is often said that the towns of The West have a large floating population. This will be strikingly evident if the warm weather continues and the water keeps accumulating.

The people of New Westminster have just elected Mayor J. A. Lee as their mayor. Lee's supporters are convinced that it is safe to keep on the leeward side of the municipal ship.

If the people of Lethbridge and other western cities want to hear some thrilling narratives, why don't they extend an invitation to Dr. W. J. Currie who has just returned to Canada after spending 25 years among African tribes, instead of allowing Dr. Grenfell to tell them how to cure fever and to say how "awfully wicked" the Eskimos are?

The men who are advertising in this journal are live business men. Dead men are only fit for inhabit cemeteries and not to attempt to run a business without advertising. If they are decently dead, dead all over, we tenderly lay them away in the sleep of the tomb; but if they are dead to all the enterprise out of the narrow plans of their own interests and yet persist in walking around, moving their dry bones, caldroned hearts and consciences where real business is wont to throb and pulse with vigor, they are only like the drone bees, in the way until they are stung to death and dragged outside the hive of legitimate industry. Twenty real live men are worth more to the public generally than a round full thousand of useless material that lie around like rubbish in a rising stream that is aching and foaming to turn mills and factories. Yes, live men, bless, but dead men curse a town.

## Dr. Grenfell Causes Erroneous Conceptions

The following which is taken from the Western Star, Bay of Islands, Nfld., contains some timely information about Dr. Grenfell and his work on the Labrador coast. The following clipping also supports your recent remarks regarding the man who is accumulating great riches in the land of which he has the audacity to say in stringent circumstances.

"One would imagine, reading the exchanges referred to, that conditions were so bad in the country people are forced to leave it, when the very opposite is the case. Today on the west coast of Newfoundland the Dominion Iron and Steel Company are seeking for men and are unable to obtain all they require; the same is also true of other industries; and so acute is the scarcity of laborers becoming many are of opinion that in the

occupied any serious injuries more time that they had to "beat it" over the railway ties to the burg of the east end of town.

very near future those carrying on industries will be compelled to look elsewhere.

The fact that the Liberator is a hearty champion, race, of the type and class that new countries are seeking for, and it is worth an effort on our part to retain the earning power of those who live in the country.

"There is no necessity today for any person to immigrate, that day is passed as far as we are concerned. If Dr. Grenfell wants to befriend the unemployed why does he not go to his own country and apply his energy and ability in that direction. There he will find starving millions, vice and crime, without any parallel in any other civilized country."

"There is neither starvation nor vice nor crime here. If we are anxious to rid the world of philanthropist and benefactor, his own country is the field for him, there his services are most needed. Leave our people alone Doctor, we want them to work out the destiny of our island home, their brain and muscle can be more profitably employed to their own and their country's benefit here."

## Fancy Dress Carnival Next Wednesday

On Wednesday evening next a fancy dress carnival will be held on the Blairmore skating rink, weather and other conditions permitting. A list of prizes is being arranged, and the following are among the many items on the programme for which prizes will be awarded: Best dressed lady, best dressed gent, best dressed boy, best dressed girl, best costume, also medals for half-mile backward race, obstacle race, etc. It is expected that a brass band will be in attendance. Watch for further details to be announced on bills about Saturday. Remember the carnival date—January 24th.

## Welsh Choir

All nations that have made any damage to the world are excluded the course of their evolutions a music that is purely national. A composer would have no difficulty in telling them how to cure fever and to say how "awfully wicked" the Eskimos are? Each has its characteristic excellences. It is certain, too, that just as easily could be detected selections in Welsh. In one particular Welsh music excels that of all other nations, that is in the singular beauty of its part songs. The Welsh part songs stand alone in interpretation and rendition of these most difficult and wonderful compositions the Welsh people have been from time immemorial facile precursors. For those who have never heard this class of music a treat is certainly in store in the coming visit of the Moelwyn Male Choir. This splendid aggregation is justly considered one of the most perfectly trained choirs in existence. It has a record of having won \$15,000 in prize in competitions with other choirs. It was the favorite choir of the late King Edward VII. The choir will give a splendid programme in Blairmore opera house on Tuesday evening next.

### Alberta Stock Shippers

From reports which have come to hand, it appears that practically all the live stock interests of Canada were represented at the meeting held in Toronto to discuss the New Proposed Live Stock Shipping Contract, except the one most directly concerned in it, namely the shippers themselves.

Those were delegates representing Stock Breeders Associations, Fairs Associations, Boards of Trade, Manufacturers Associations and Government Officials, but from Alberta alone was there a delegate who carried credentials from a body of stock shippers and even knew the organizers thus had yet only temporary.

The situation is anomalous and difficult to explain. Alberta Shippers, like most Alberta men, are live wires and they got together and expressed their views just as soon as they were asked of what was going on, but their work is not yet done. It is evident that the entire subject of shipping live stock is to be investigated. A set of regulations covering live stock shipments has been submitted to the Board of Railway Commissioners by the Live Stock Commission at Ottawa for approval. The Railway Companies reply that these are not needed, that the service they are now giving the shippers is good enough and in their own interest they have submitted for approval this new Live Stock Shipping Contract, in which they endeavor to get the shippers to release them from responsibility for almost every conceivable kind of accident, no matter who may have been the cause of it.

Another important feature of this Contract is the one making it the duty of the shippers to explain to the man he sends in charge of his stock, that in case the attendant is injured, he cannot collect from the company, no matter how the injury occurred and if the shippers fail to do this and fail to get the attendant to sign a contract releasing the company from all responsibility for his safety, then the shippers are himself liable for any claims for damages that may arise should the attendant be killed or injured while going through with the stock or returning.

Shippers' office work are the people most directly interested in these questions and the result of the decision that will be rendered on them will depend very much on the manner in which the shippers represent their side of the controversy.

All that has been done to improve shipping conditions this far has been done by the stock breeders and stock growers associations and government officials. It is time that the shippers speak for themselves. Had they done so long ago much more could doubtless have been accomplished.

## Lake City

Is the name of the Western Terminus Point of the proposed Crow's Nest Pass Electric Railway and is already tapped by the Pass line of the C. P. R., while the G. N. R. has already approached to within a few score of miles and must eventually pass through this admirably located town.

### Lake City

Is located by the shore of Crow's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the international line. In reality, it is at the top of Canada where the majestic Rockies tower in serene magnificence over great chasms and numerous bords, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tanks for the daring mountaineer climber and for hunters who desire to survive the quiet ways of the Rocky Mountains, sheep, deer or elk, which are the monarchy thereon. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages. These resources include gold, quartz, coal, iron and pulp wood.

Crow's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now this promise is being realized. Plans for hotels, etc. are being arranged, as well as boat houses, and the most modern pleasure yachts will soon glide over the surface of this beautiful lake.

But a few weeks ago lots were placed on the market, and the agents have had their hands full attending to purchasers. Prices run from \$150 up. For further particulars apply to the agents:

### Presbyterians Hold

#### Annual Meeting

The first annual meeting of the First Presbyterian Church of Blairmore was held on Monday evening last. About twenty members and adherents were present.

The meeting was presided over by the pastor, Rev. A. S. Tod, who read the several reports, showing that the different organizations of the church were in a flourishing condition.

A music committee, consisting of W. A. Chester, chairman, Mrs. J. F. Lank and J. G. Smith, was appointed for the purpose of securing funds with which to purchase a new organ to replace the old one now in use in the church. A subscription was taken up amongst those present and the sum of \$60 was soon realized.

It was stated that the property purchased some time ago for the purpose of erecting a church, there on, was still undisturbed and people were still living there although the former owner promised to have same cleared long since. Necessary steps will be taken to have all buildings, etc. removed from the property, preparatory to erecting the large Presbyterian Church thereon.

At the close of the meeting refreshments were served and all went home fully satisfied.

### Hockey at Blairmore.

Frank and Blairmore hockey teams met Monday night on Blairmore rink and after playing twenty-five minute halves the score stood 2-1 in favor of Frank. The game which was scheduled for 7:30 was fully half an hour late in starting.

During the first ten minutes of the play the puck travelled back and forth but owing to the soft and slushy condition of the ice it seemed impossible to get it far enough off the ice to make the shooting on goal effective. Goddard of Blairmore got the first one. Shortly after this Hughes and Horton were sent to the fence by cannon, the referee, H. Murphy, as judge of play, objected to the two men being put off. After considerable delay it was decided that Hughes and Horton need not be penalized. At half time the score was still 1-0, Frank failing to find the net.

When the puck was faced for the second period both teams started in rough it, tripping, cross-checking etc., being very much in evidence. Neither the referee, judge of play nor the players themselves seemed to mind it so the rough work continued till the end of the game with only two men being sent to the fence. McKay for Frank shot out in from right wing and ended up the score. A few minutes later McKay again succeeded in landing an easy one after carrying the rubber through the Blairmore defence, and getting Della out of the goal. McDowman in the Frank goal did good work.

The line up was as follows:  
Frank Blairmore  
McGowan goal Della  
Hughes point Lewis  
Doddin c. point Shera  
McKay rover Turner  
Rourke centre Baker  
Scott r wing Goddard  
Smith l wing Horton

Referee—Zensdo.  
Judge of play—Murphy.

The above game has been protested by both the managers of the Frank and Blairmore teams.

### Chinaman Sells Liquor

#### Without a License— Is Fined \$100.00

G. L. Googy, a Chinese laundry man, was up before the court at Coleman, on Monday last, charged with selling, intoxicating liquor without a license. Googy pleaded guilty and was fined \$100 and costs.

On Sunday Chief of Police Ford and Corporal Grant of the R. N. W. M. F. were successful in getting a deputy to purchase some liquor from the Chinaman. Shortly after this was accomplished a search warrant was issued and the premises were searched with the result that several cases of Chinese liquor were found. G. L. Googy, license inspector, of Pincher Creek, was given the facts of the case over the wire, and he arrived in Coleman the following morning.

Googy was summoned to court immediately after Mr. Whitaker's arrival and was arraigned before Justice Disney. The prisoner stated that he had the liquor imported for Christmas consumption but admitted that he had disposed of some of the fire water by selling. This was Googy's first offence. He was therefore given the minimum fine but felt somewhat happy when informed by the court that his intoxicants would not be confiscated.

### A Miner Injured

He was taken to the hospital where he is now recovering under the treatment of Dr. Ross. Mr. Tomkins' back was badly wrecked but it is believed that he will be around again in a few days.

### The Castle Square Entertainers

This company is known as the Castle Square Entertainers and will appear at the Blairmore opera house on Thursday evening, Jan. 26th. Those who wish to spend an enjoyable evening, not one of the moment—should hear the Castle Square Entertainers on Thursday next.

### A Strange Phenomenon

#### --Was It a Ghost?

Word was received in town on Saturday last that T. B. Brandon was seen in Coleman early that morning. A certain person of a reputable character, states positively that he who ran the Coleman Miller and other newspapers, was seen on the streets of Coleman on Saturday, but the would-be newspaperman was invisible to all others. We have not heard of any friend peering in his checks and asking to play a harp—or using a shovel, but it certainly does seem strange that his ghost was seen in the "Coal Town" on the above date by only one person. The favoritism shown to one individual is enviable (7).
